COMM-KIT

TX6150

5 WATT HANDHELD UHF CB RADIOS

These compact water and dust proof UHF CB radios are equally at home at the beach, the farm in wet weather or hiking in the dry, dusty outback. With a 24 hour* battery and a handsfree VOX earpiece included, you can keep connected and stay safe, even in the most extreme conditions.

For a limited time only this radio is available as a twin pack, along with a whole bunch of accessories in a handy rugged case.

FEATURES

- > Rugged construction with a die-cast chassis, water and dust proof to IP67**
- > 5/1 watt switchable output power
- > Intelligent battery management with a powerful 2200 mAh Li-ion battery
- > 477 MHz (UHF CB) with selectable duplex, calling tone and roger beep
- > 80 channels, 22/23 used for telemetry and telecommand applications only, 61/62/63 are reserved for future use.
- > Open scan with user selectable channel memory and dual watch.
- > CTCSS, DCS and voice inversion scrambler.

TWIN PACK

*24 hour operating time using low output power, 15 hours using high output power. Based on 5% transmitting, 5% receiving and 90% waiting mode. **Ingress Protected rating of 6 – dustproof, and 7 – waterproof when immersed at 1 metre depth for 30 minutes with radio correctly and fully assembled.
